BACKGROUND

I live in the small country of Bermuda but have great ambition to become a professional motorcycle racer and one day race in MotoGP. I have been racing competitively from the age of 10 years old under the Bermuda Motorcycle Racing Association (formerly BMRC) and continue to seek opportunities to improve my race craft. I have notable talent, am confident in my riding abilities and can adapt quickly to new tracks and environments. I am looking to strengthen the partnerships I already have formed and create new partnerships with those who are as passionate about motorcycle racing as I am. I aspire to travel the world and compete internationally, improving with each experience. My mission is to seek endless possibilities that turn into opportunities to showcase my skill and abilities in motorcycle racing. Join me, as I approach this exciting 2026 race season!
