Attention: Mr. Maceo Dill

Dear Sirs,

Re: Elite Athlete Assistance Program

Thank you for this opportunity for the National Archery Association to be able to submit Camerin Pickering for the Elite Athlete Assisstance Program. Camerin has been competing locally since 2014 and internationally since 2016. He competes mainly in the recurve division events in both 18 meters and 70 meters. He is ranked #1 in Bermuda within the Seniors category. Camerin is ranked 117th/2000+ active archers in the World and this year with the five events he will attend, the expectation is his ranking will improve. His highest ranking has been 82nd.

Camerin's goal is to qualify to compete in the Pan American Games in 2027 and the LA2028 Olympics. He will be attending qualifcation events in 2026 and 2026. He has a strong program in place, along with a great support team of coaches, physio therapist, sports physcologist, strength & conditioning trainer and family.

The National Archery Association of Bermuda wholeheardly supports this application for Elite Status/High Performance Athlete in advance of the Olympic Games as he proceeds to gain an spots for Bermuda and himself.

Please feel free to contact us for any additional information or clarity. We welcome your support for Camerin going forward.

Kind regards,

Trina N Roberts
Secretary General
